------	------------	--------------------

This may be a challenging year, but we are here for you! We've modified the wonderful textbook, *Living as a Disciple of Christ*, from Sophia Institute Press, to focus on the 18 core sessions. By following the suggested timeline above, you and your child can complete the program before Spring Break.

We will also assist parents by creating videos to help and support you as the primary catechist for your child, as well as videos for your 7th or 8th grader.
